Career Hub

RESUME · COVER LETTER · JOB TRACKER

by KaelLabs

Welcome to Career Hub. Your next application, *ready in minutes.*

Thank you for your purchase. Your workspace opens in about a minute — no account, no subscription, nothing to install. Build your resume once, tailor it for every role and keep every application on track.

On your computer

1. Unzip **Career-Hub.zip** and keep the folder somewhere permanent, like **Documents**.
2. Double-click **Career-Hub.html**. It opens in Chrome, Edge, Safari or Firefox — fully offline.
3. Bookmark it and open it the same way each time, in the same browser.

On your phone or tablet

1. Tap your **private link** below in Safari (iPhone, iPad) or Chrome (Android).
2. Add it to your Home Screen: **Share → Add to Home Screen**, or ⋮ → **Install app**.
3. Move around with the **bottom menu**: Hub, Experience, Resume, Tracker and More.

YOUR PRIVATE ONLINE LINK

resume-planner-rouge.vercel.app

For your own use — please keep it private. Everything you enter is saved in that browser on your device. Nothing is uploaded to a server.

Open Career Hub →

Your first minute

1. **Experience Bank**: add your profile, roles, education and skills once. Every document reuses them.
2. **Resume Builder**: choose from 3 layouts, 4 colours and 2 header styles. Adjust fonts, text size, spacing and A4 or US Letter.
3. **Review**: follow the completion and formatting checks, then arrange or hide sections for each role.
4. **Download PDF**: choose **Save as PDF**, scale **100%**, headers and footers off.
5. **Cover Letter & Tracker**: write a matching letter, add the job to your Tracker and set a follow-up date.

Just exploring? Go to **Settings → Load demo data**. Clear it anytime with **Remove all data**.

The one rule: your data lives in your browser

Career Hub saves privately in the browser you use. Open it from the **same browser and file location** (or the same link) each time. Your computer file and online link keep separate workspaces — move between them with **Settings → Export backup** and **Restore backup**. Export a backup weekly and before changing devices.

Good to know

Career Hub by KaelLabs

What's inside

- **Hub**: next step, resume readiness and follow-ups.
- **Experience Bank**: profile, roles, projects, education, certifications, skills, awards.
- **Resume Builder**: Mint Modern, Executive and Professional Sidebar — 24 style combinations, drag-and-drop sections.
- **Review checks**: completion and format checks before you export.
- **Cover Letter**: matches your resume and fills in details from a tracked job.
- **Job Tracker**: Wishlist → Applied → Interviewing → Offer board.
- **Contacts**: recruiters and referrals with follow-up dates.
- **Playbook**: 12 golden rules, STAR, negotiation and networking scripts.
- **Settings**: light and dark mode, 5 accents, backup and restore.

Works with

Mac · Windows · Chromebook · iPhone & iPad · Android · Chrome · Edge · Safari · Firefox

Exports a text-based PDF with selectable text. The single-column **Executive** layout is ideal for online application portals.

Troubleshooting

"My entries are gone!"

You probably opened Career Hub in a different browser, moved the HTML file, or used private browsing. Open it the way you did before, or restore your latest backup.

New phone or computer?

On the old device: **Settings → Export backup**. On the new one: open Career Hub → **Settings → Restore backup**.

PDF cut off or showing extra text?

In the print window choose **Save as PDF**, scale **100%**, turn **headers and footers off** and keep **background graphics** on.

Which layout for application portals?

Choose **Executive** (one column), then copy the text from your PDF to confirm it reads in the right order.

Dark mode or a different accent?

Desktop: the moon and palette buttons at the top. Phone: **More → Appearance**.

Need help?

Message us on Etsy — we're happy to help.

Preparation tool. Career Hub helps you organise your experience, documents and applications. Your content is your own, and hiring decisions rest with each employer. Personal use licence — please keep the file and link private.

Thank you for supporting our small studio!

We built Career Hub to make job searching calmer and more organised. If it helped you, **an honest review on Etsy** would mean the world to an independent maker — and helps other job seekers find it.
